

# Weekly Report

06/01/2015-06/07/2015

## Research

This week, I am finding the introduction of “Probabilistic Graphical Models” in order to further understand the 11th chapter of 《统计学习基础》. I have a tiring but pleasant trip that we walk across the the boundary of Zhejiang and Anhui as planed.

## Plan for next week

- Find cases of our storyline project.
